Tax Year

2024

Hi Anwar! Based on the information you've provided, your total income for the 2024 tax year is \$50,000, and you have claimed \$1,200 in deductions. Since you are single with no children, you may not be eligible for certain family-related credits, but you can still benefit from basic personal credits. Living in Quebec may also provide you with additional provincial credits, so be sure to look into those. Given your income level and deductions, you could be looking at a refund, but this will depend on your total tax withheld. For next steps, gather your income documents, any receipts for your deductions, and keep track of filing deadlines. It might be helpful to consult a tax professional to ensure you're taking full advantage of all credits available to you. You're on the right track!
